

Health Connect

REMOTE PATIENT MONITORING

AN AFFILIATE OF

Smart healthcare available anytime, anywhere.

Remote Patient Monitoring can help better manage your chronic disease daily and is covered by Medicare so you pay nothing out-of-pocket.

WHAT CAN RPM DO FOR ME?

Your Personal Care Team

Your vital signs will be monitored daily by a highly-trained registered nurse and other medical professionals.

Monthly Coaching

Monthly patient coaching is provided to help you manage and improve chronic conditions.

Improved Management

Better management of your chronic condition can prevent ER admissions. RPM is here to help patients living with:

- CHF
- COPD
- Diabetes
- Stroke
- Infections

****RPM is not a substitute to your primary care physician or emergency services. In the case of emergency, please dial 911 or visit the nearest ER.**

SMART DEVICES INCLUDED

State-of-the-art Wi-Fi/Bluetooth enabled smart devices are provided upon completion of enrollment.⁴ These devices include:

- Scales
- Pulse Oximeters

- Blood Pressure Monitors

- Glucometers
- Thermometers

⁴Device(s) supplied based on illness(es)

AM I ELIGIBLE FOR RPM?

You must be a Medicare beneficiary with at least one chronic condition that needs monitoring.

HOW CAN I LEARN MORE AND GET STARTED?

We would love to work with you to see how RPM can fit into your life. Connect with us to learn more!
